Otis Spunkmeyer’s Oven

The Otis Spunkmeyer Oven is a specialized baking appliance designed to perfectly bake the brand's signature cookie dough. This oven is part of a unique program aimed at businesses looking to offer fresh, warm cookies to their customers. By purchasing a certain amount of Otis Spunkmeyer's frozen cookie dough each month, businesses can receive the oven at no additional cost. The oven itself is UL and NSF approved, with dimensions of 19.25”D x 20.5”W x 9.25”H, and it operates on a standard 120V, 11.3 amps, 1,350 watts, 60Hz electrical connection. It's pre-set to bake the cookie dough to perfection, with a capacity for three

dozen 1.33oz cookie dough pucks. The kit includes three cookie trays, an oven timer, a hot pad, sampling bags, pick-up tissues, pan liners, and detailed baking/cleaning instructions. This program not only provides the equipment needed to bake the cookies but also supports businesses in increasing their sales with the appeal of fresh-baked goods.
